Limitations	<p>The user is given the opportunity to exclude any data points in order, for example, to be able to carry out data smoothing. DAT assumes no responsibility for the resulting changed presentation of the data.</p> <p>All data points shown within the Repair Cost Tracker are based on historical data. The product does not provide current price forecasts or similar information.</p> <p>The data visualised through the licensed product may be used only for the analysis of repair data and business processes directly associated with these purposes. No other usage is permitted.</p>

	The data displayed within the Repair Cost Tracker does not fully reflect the entire repair market. All analysable data is based entirely on the applications of DAT which are available to the market.
Access/installation	Use of the licensed product requires an agreement to be in place regarding the SilverDAT data and information system. The system requirements for SilverDAT applications - available at - http://www.dat.de/silverdat/systemvoraussetzungen - also apply.
Documentation	Manual available as PDF in the user interface.
